

Liquidation Channel Press Release

For Immediate Release

Summary: Liquidation Channel (LC) launches stunning gemstone - Table Mountain Shadowkite.

LC launches stunning new gemstone set in brand new designs and styles

Adding another exotic gemstone, the Liquidation Channel (LC) is launching a rare and stunning gemstone – Table Mountain Shadowkite. LC will be featuring a 12-hour show of Table Mountain Shadowkite on Saturday, July 25 from 12:00 p.m. to 11:59 p.m.

Table Mountain Shadowkite is an exceptionally beautiful and rare gemstone desired for its stunning color combination of baby blue, royal blue, light emerald green and pine green. This incredibly rare gemstone is exclusive to the LC and cannot be found in other home shopping networks or retailers.

This new stone presents an extremely rare color combination that is hard to find, even among gemstone collectors. Its four-color combination is unique and cannot be found consistently in any other stone. It is a 100 percent natural stone with no additional treatments. Table Mountain Shadowkite is a part of the chrysocolla stone family and encompasses a blend of four different minerals: chrysocolla being its primary component, cuprite, malachite and azurite.

LC President Gerald Tempton says, “We believe in Exceptional Quality, Exquisite Designs and Outstanding Value. That’s why we have purchased the very best quality roughs available and we are cutting everything in house so that we can offer this beautiful stone at an outstanding low price.”

Tune in to the LC on July 25 to experience the vibrant beauty of LC’s Table Mountain Shadowkite jewelry collection. For more information on updates and specials, stay tuned to <http://www.liquidationchannel.com/> or www.facebook.com/shoplctv.
