

LC SOCIAL WORKS AT THE AUSTIN DIAPER BANK

The LC Social Works Committee may be a small group of 6, but they have “Hearts”  as big as Texas.

Most recently their efforts have been spent assisting at a local Diaper Bank. The Diaper Bank located in Austin, Texas was started in a garage by a Mother who realized the expense associated with the cost of diapers and understood that there were many families in the local community that would benefit from assistance in the cost of diapers and that at times the decision to buy diapers or food was a real scenario. It has grown to encompass a small office and warehouse facility. The Bank is funded by donations of not only individuals but by Companies in the area. Donations are both monetary as well as in kind. Once the diapers are collected the real work then begins, in that the diapers have to be sorted and bundled and prepared for distribution. This was where the committee felt they could give the most. They arrived and assisted in making signs for an upcoming Fund Raising Event as well as bundling and sorting diapers that had been recently donated.
